

product introduction

The ODDM-S75 Brick Light is specially designed for Cognex camera systems and is designed to operate at up to 500mA of strobing current provided by the camera system with an intense and even light distribution pattern. With its simple direct connection to the DM300, versatility is at its peak. Strobe and pulse duration are determined by the DM300. Built in SafeStrobe Technology ensures over-current protection of LED's.

product features

COGNEX
id >

- Connects directly to Cognex DM300 Reader
- Powered Directly from DM300 External Light Control
- SafeStrobe Technology ensures protected operation of LED's
- Industry Standard M12 Quick Disconnect
- High Speed >> Fast Response

product specifications

Current	Max. 500mA
Wattage	Max. 12W
Connection	Direct Connect to DM300 – 5pin M12 jumper 'male to female'
Electrical Input	Powered by DM300
Strobe/Pulse Time	Specified by DM300

mounting & accessories

Direct connect cables available in 1 meter and 2 meter lengths.
