## EU REACH SVHC-197 Statement

Dear Customers:

This statement concerns European Union regulation 1907/2006 of 18 December 2006, updated on January 15<sup>th</sup>, 2019. REACH regulations on Registration, Evaluation, Authorization and Restriction of Chemicals and apply to all Smart Vision Lights products.

Under REACH regulations we are considered a provider of "articles." All of our products are assemblies, not raw materials. Based on the reports from sampled suppliers, Smart Vision Lights claims that our products do not intentionally release substances to the environment nor do they provide exposure to humans or the environment during normal, reasonably foreseeable conditions of use including disposal. Smart Vision Lights has not carried out any testing of the products to verify the statements made by our supplier. Also, the products manufactured by Smart Vision Lights do not contain any of the substances at a concentration exceeding 0.1% w/w of the SVHC candidate list. Given those conditions our products are exempt from REACH pre-registration and later registration activities.

Our exempt status is based on our knowledge of materials used to manufacture our products, our understanding of REACH as given in the guidance document, all SVHC lists published as of to January 15, 2019 and <http://echa.europa.eu/web/guest/support>.

Signature,

A handwritten signature in black ink, appearing to read "Gilbert M. Pinter".
