Smart Vision Lights provides a 45-day Consignment Program that is used for testing light(s) on vision applications. The light(s) are 100% new and intended for lab testing only. Consignment light(s) are NOT to be used for testing on machines that are operating on the factory floor. This agreement needs to be filled out completely and submitted along with a zero-dollar purchase order for each consignment request.

If the testing proves positive and the customer would like to purchase the light(s), please contact Smart Vision Lights to request an invoice. If the testing is not completed within the 45 days and the customer would like to extend the consignment term, please contact your Smart Vision Lights representative for approval. All extension requests must be approved prior to the expiration of the original consignment agreement and are not retroactive. Please contact Smart Vision Lights for a Return Material Authorization (RMA) number before shipping the light(s) back.
