Custom Made Pattern

Glass Pattern

Active Area

Square – 7.78 per side

Glass Diameter 24.3mm

Etched Area

$T_E$ (Etched Thickness)

Projection Area FOV (Field Of View)

$T_P$ Projected Thickness

Line Thickness Formula – square projection area

\[
\frac{T_E}{7.78} = \frac{T_P}{X}
\]

- $T_E$ is the Etched Line Thickness
- $T_P$ is the Projected Thickness
- $X$ is the Projected Length
- 7.78 is the side of Etched Square Area (7.78mm for square projection)
